Onsite Training

With on-site training from Saryx, you can train several people in the same technology/course, or you can customize your training for a non-standard technology/course deployment. There's no need to travel for the training you need. Our on-site training option brings world-class Saryx training to your site or a convenient nearby location.

On-site training saves money by eliminating travel and hotel expenses.

We offer the following for Onsite Training:

- All In-Class courses can be offered as Onsite Training
- Affordable pricing applies per group / company
- Customized training material can be developed to client specification and needs

Room Rental

We provide Training rooms with or without PCs to freelance trainers, individuals or businesses. We also offer training rooms for meetings, corporate events and conferences where we provide data projectors, flipcharts, whiteboards and catering as required.

Training Room Name	Room Details
Training Lab 01	<ul style="list-style-type: none"> • 12 PC's with MS Office 2010. Other programs can be installed upon request • Data Projector • Two white boards with stationery • Flip Chart • Air-conditioning • Tea Room can be used for refreshments

Prices and training dates are subject to change without notice
